

GS1 & DataBar

GS1-128 with a serial shipping container code, written with application identifiers in brackets:

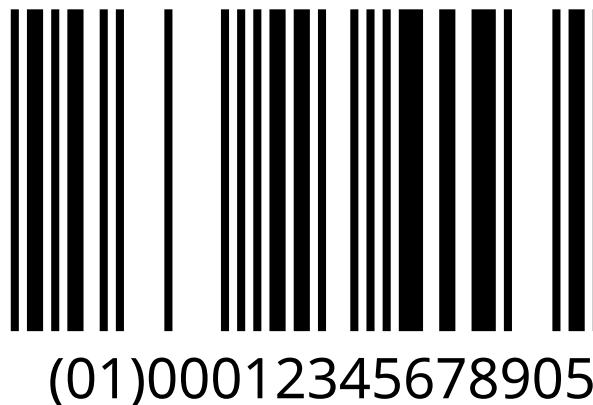

The same symbology with a GTIN, a batch number and a best-before date. {FNC1} ends the variable-length batch field:

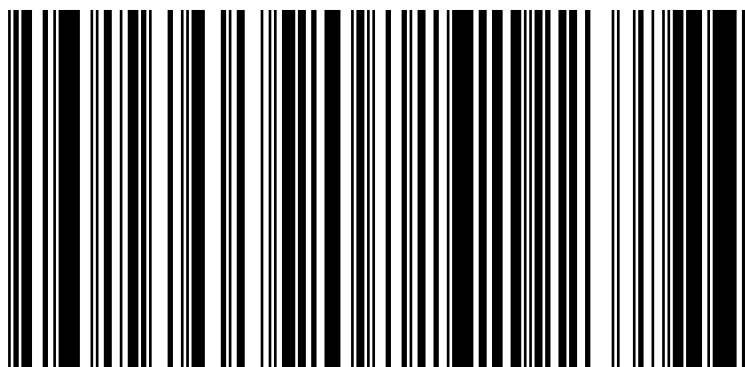

DataBar Omnidirectional, for fresh food sold by weight:

DataBar Limited, for very small packs:

DataBar Expanded takes the full application identifier syntax, here a GTIN with a weight and a price:

(01)98898765432106(3202)012345(3922)0795
