

Dark theme

Everything follows the theme: page background, body and heading text, tables, quotes, rules, code palettes, diagram colors, math glyphs and the icons drawn from bare path data.

Element	Themed
tables	yes
code	yes
math	yes
diagrams	yes

```
# the dark code palette
def area(r: float) -> float:
    return 3.14159 * r ** 2
```

Math takes the text color: $\int_0^\infty e^{-x^2} dx = \frac{\sqrt{\pi}}{2}$

Quotes and alerts adapt as well.

Tip
Set "theme": "dark" in the request, or flip the switch in the editor.
